USING MATERIALS SOURCED IN THE
UNITED STATES OF AMERICA

For more than a quarter century, Questech tiles and accessories have been expertly crafted with pride in Vermont, USA. All materials are sourced in the USA and contain real premium metal and natural stone. Designed for longevity, Questech products feature Q-Seal protection: antimicrobial, mold and mildew resistant and scratch & stain resistant. Safe for installations in wet areas with no need for special cleaners. Built to last for as long as you own your home. Guaranteed.

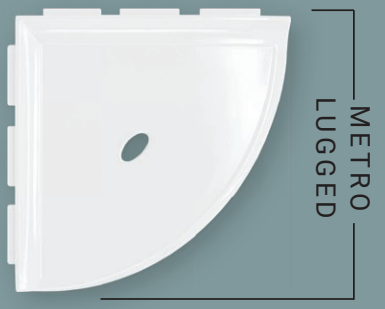
METRO & GEO COLLECTIONS | BATH ACCESSORIES

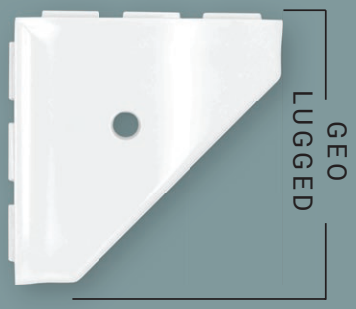
EASY TO INSTALL CORNER BATH SHELVES

Our architecturally inspired shelving solutions have unique features which make them ideal for installation with new and existing tile. Metro is a classic design that can be easily installed and blend in seamlessly to finished tile. Geo is the modern alternative to shower organization. Safe for wet areas and never the need for special cleaners, Questech bath accessories are protected from water, stains, mold and abrasions by the revolutionary sealing technology, Q-Seal.

LUGGED DESIGN

Designed for installation with new tile construction. Requires cutting.





FLATBACK DESIGN

For easy installation over new or existing tile walls. No drilling. No cutting.

PROTECTED BY Q-SEAL®

HIGH RELIEF LINERS | TILE & TRIM

SEAMLESS TRANSITION

Add the perfect finishing touch to complete your installation with beautiful decorative high relief tile liners. Tile liners are essential for creating a seamless transition between your wall and tile installation. Our high relief liners, jollys and chair rails offer an elegant border that will beautifully frame your tile. For a classic or modern look, explore our decorative liners, jollys and chair rails featuring architectural-inspired designs to coordinate with any tile.

MORE ABOUT

CAST METAL COLLECTION

REFINED FINISHING: VAST COORDINATING COLLECTION

Our cast metal trims complement any interior with the warmth of traditional metal and reflected light. Each original design is hand carved and all Questech products are manufactured using materials sourced right here in the United States.

THE FINISHING TOUCH: INSPIRED DESIGN.

MOSAICS | SPARKLE & SHINE

HIGH IMPACT & TIMELESS DESIGNS

Designed to coordinate with all of Questech's tiles and accessories; the Mosaic Collection blends finishes and textures into warm architectural brilliance. These mosaics will add sparkle to your design and be the perfect finishing touch for any bathroom or kitchen.

COLORWAYS | CUSTOM COLOR BY QUESTECH

BRING US A COLOR THAT INSPIRES YOU AND WE'LL MATCH IT!

COLORWAYS CUSTOM COLOR PROGRAM - AVAILABLE ON OUR DECORATIVE TRIM DESIGNS

The ColorWays program is a new custom color process that allows us to match any color sample. Create your own color palette and submit it to us to develop and apply new colors to any of our high relief liners, jollys, and chair rail designs. If you have a paint sample, fabric swatch, Pantone chip or seasonal colorway, we can create a color formula to bring you vision to life with our decorative finishing pieces.

HOW IT WORKS:

BRING US YOUR COLOR INSPIRATION AND WE'LL MATCH IT WITH OUR IN HOUSE CUSTOM COLORIMETER PROCESS.

COLORWAYS PROCESS

1. Provide a product sample or swatch with the desired colorway and chose from any of our 8 different liner, jolly and chair rail design (minimum orders apply).

2. Questech technicians will create a ColorWays custom color formula based on the color submission and produce a sample for review.

3. If adjustments are needed from the initial samples, adjustments will be made and a final sample provided for approval before production.

4. Approximately 4-6 weeks after approvals, the products will be ready to ship.

LINER DESIGNS:

APPLY YOUR CUSTOM COLOR TO ANY OF THESE 8 DECORATIVE TRIM DESIGNS:

2" X 12" LINEAR CHAIR RAIL

¾" X 12" SOHO BULLNOSE

½" X 12" SOHO PENCIL

¾" X 12" LINEAR LINER

½" X 12" LINEAR PENCIL

½" X 12" NAIL HEAD PENCIL

½" X 12" CORNICE PENCIL

Ask about our custom product design services to accompany your custom colors.

QUESTECH

THE **FINISHING** TOUCH

OUR STORY: AN AMERICAN INVENTION

QUESTECH | FOUNDED BY AMERICAN ARTISAN ROGER QUESTEL

In 1986, Questech metal was invented by Roger Questel in a paper cup in the basement of his wood carving studio in New York City. He mixed metal powder with polymers and ceramic to create the first light weight metal composite.

Roger moved to Vermont in 1991 and began developing a process to cast decorative tile with a small group of 5 artisans. Today Questech employs over 65 people in Rutland, Vermont, in a 75,000 square foot facility with a view of Killington Mountain. Questech has over 1000 different designs available in a wide variety of metals and finishes.

Each original design is hand made by artists and model makers using techniques that have been developed over the 20 year history of the company. Our products are then cast in molds, using ingredients also manufactured in the USA.

We are very proud of the products we make, the people we employ and the country we live in. Questech Metal and RQ Home reflect the care and pride we feel in each and every piece we make. It is our sincere hope you enjoy them as much as we enjoy creating them.

We are also proud of the recognition we received along the way for our business innovation, environmental awareness and design.

> "Mass production need be no bar to creative effort if creative effort can give direction and control to production..." ~Frank Lloyd Wright

ABOUT THE FOUNDER: ROGER QUESTEL

INVENTOR

AWARD-WINNING CAST METAL INNOVATION

SCULPTOR AND DESIGNER

Roger Questel is a Parson's School of Design Graduate with a degree in Environmental and Product Design.

As a noted designer and an accomplished wood sculptor, Roger was sought after for the exceptional beauty of his work. Roger has been commissioned by many renowned clients including Orson Wells, Ralph Lauren, Gordon Getty and Carly Simon.

In 1990, while seeking to cast his sculptures in bronze, Roger invented a lightweight and affordable metal composite material.

Questech Metal took on a life of its own when Roger patented his innovation and founded Questech Corporation.

In 1991, the Smithsonian Institute inducted Questech Metal into its permanent collection of innovative materials at the Cooper-Hewitt National Museum of Design.

Recently, Roger has been inspired by his travels to the far east and has discovered a passion for ceramic sculpture while working in his barn studio in rural Vermont.
